PURDUE UNIVERSITY | Department of Computer Science

Iniyan Joseph
Email: iniyanijoseph@gmail.com

Dear Iniyan:

We are pleased to be able to offer you a part-time 0.5 FTE (full time equivalent) assistantship working 20 hours per week as a Graduate Teaching Assistant in the Department of Computer Science. The assistantship is contingent upon you meeting all the admission requirements of the department/program and Office of the Vice Provost of Graduate Students and Postdoctoral Scholars (OGSPS). The dates of your employment are August 17, 2026 through May 14, 2027. Since this is an academic-year appointment, you may be able to earn additional salary through the summer session by teaching or conducting research.

- Graduate Teaching Assistants are considered employees of the University and are subject to the applicable policies and procedures. They are expected to fulfill their assigned teaching duties and assist faculty and departments in their designated teaching aims and responsibilities.

Assistantship Details

- The base annual salary is **$25,555.00** for the academic year, paid biweekly.
- An annual medical insurance premium contribution which pays a portion of the Graduate Staff Insurance, the value of which is currently estimated at **$1,883.99 per year.** Purdue pays this portion directly to the insurance carrier which covers a portion of the total cost. You will be responsible to pay your portion, currently estimated at $59.14 per month, directly to the insurance carrier making those arrangements when you enroll.
- A graduate tuition remission, currently valued at **$28,520.00** for the academic year, is provided to cover your tuition costs.
- The following fees are charged to graduate students at the beginning of each semester. Fees listed below are for the current academic year and are subject to change. This offer WILL NOT cover these fees.
    - Student Fitness & Wellness Fee - $117.00 Fall, Spring; $58.50 Summer session
    - Student Activity Fee - $20.00 Fall, Spring; $10.00 Summer session
    - International Student Fee (if applicable) – $135.00/semester for Fall, Spring, Summer
    - College Differential Fee - $562.00 Fall, Spring; $281.00 Summer session

- Herbold Scholarship of **$10,000** for the first year. This scholarship is awarded to highly qualified applicants with a strong quantitative background in Computer Science.

Thus, your total award package from Purdue University is worth approximately $65,958.99 which includes salary, the Herbold scholarship, and medical insurance premium contribution, and tuition remission for a nonresident student for one year.

If we can be of any assistance to you in answering questions pertaining to this offer, please do not hesitate to contact Ha Nguyen in our graduate office at nguye767@purdue.edu. We look forward to welcoming you to Purdue in August.

Sincerely,

Petros Drineas
Department Head and Professor of Computer Science
Department of Computer Science
College of Science

Assistantship Terms and Conditions

Student: Joseph, Iniyan
Start Date: August 17, 2026 **Offer date:** February 16, 2026

Award Conditions: The following are the actions you need to take to receive all the benefits offered:

- **Officially submit your acceptance (previous page) to the address indicated by April 15, 2026.** We would appreciate your decision concerning the acceptance or rejection of our award as soon as you are able to give us a reply. However, Purdue University, as a signatory on the Council of Graduate School resolution, cannot ask for financial offer replies prior to April 15, 2026. Admission acceptance can occur at any time. For more information please go to: https://cgsnet.org/resources/for-current-prospective-graduate-students/april-15-resolution/
- Must meet all OGSPS and admitting program conditions of admission, adhere to all applicable university policies, and maintain ethical behavior regarding all academic practices and work performed.
- Must maintain satisfactory academic progress and satisfactory work performance.
- Arrive on campus by the start date listed above and participate in any required student orientations.
- This offer is contingent upon submitting proof of your identity and eligibility to work in the United States. All employees working in the United States are required to complete the *Form I-9, Employment Eligibility Verification.* Section 1 of the Form I-9 must be completed ***prior*** to your hire date. Section 2 of the Form I-9 requires you to present original and unexpired document(s) from the List of Acceptable Documents and must be completed **no later than your third business day of employment**. **You can schedule a virtual appointment or an in-person appointment with your Employment (Payroll) Center**. **Failure to complete this federally required document within three business days of your hire date will result in termination of your employment.**
- Prior to your hire date, you will receive an email titled "Welcome Letter" from *Purdue HR*, which will include a link to complete some of your onboarding documents electronically, including the Section 1 of the Form I-9.
- Follow the instructions from your Welcome Letter to complete Section 2 of the Form I-9.
- You must either schedule a virtual or an in person appointment with your Employment (Payroll) Center.
- Students are presumed to have received/read all University e-mail sent to their official Purdue University e-mail account.

Additional Financial & Health Insurance Details:

- Any changes to your appointment, including changes to your salary, must be in writing.
- There are 9½ pay periods per academic semester. Your fall semester appointment begins on August 17, 2026 and ends on December 27, 2026. Your spring semester appointment begins on January 4, 2027 and ends on May 14, 2027. You will not be paid for the break between fall and spring semesters.
    - Please note that biweekly pay amounts during your first and last pay period per academic semester will be prorated based on the number of days worked during the pay period; for example, in a 10-day pay period where you work 5 days, you will receive 50% of your regular pay.
    - The biweekly pay periods can be viewed online. We encourage you to use the estimated pay calculator to calculate the estimated pay for each pay period.

- Provided the directions above are followed, the first deposit into your account is expected to occur no later than two weeks following the end of your first pay period. Subsequent deposits will be made bi-

weekly. Failure to fulfill the conditions on or before the deadlines described above may result in late deposits of funds. You will be paid by electronic deposit.

- Benefit enrollment instructions are emailed once your appointment has been entered in SuccessFactors AND you have a valid Social Security number on file. Purdue's medical insurance information can be found at: https://www.purdue.edu/push/insurance/index.html. When looking through the Academic Health Plan Portal, please note that graduate students with a total of 0.5 FTE or more in assistantships are eligible for **Graduate Staff Insurance**. **Those with dependents should review the Graduate Staff and Student Benefits Comparison sheet, to compare pricing.**

- Scholarships, Awards, and Prizes must be considered educational resources for the student per federal regulations. Therefore, any funds awarded to the student are reported to the Division of Financial Aid and considered a part of a student's total aid package. Please note, that students may not receive gift aid exceeding the total cost of attendance.

Purdue University subscribes to the policy established by resolution of the Council of Graduate Schools concerning offers of graduate fellowship, traineeships and assistantships. The Council of Graduate Schools is comprised of most graduate institutions in the United States.

Please read the resolution carefully:
Acceptance of an offer of financial support (such as a graduate scholarship, fellowship, traineeship, or assistantship) by a prospective or enrolled graduate student for the next academic year completes an agreement that both student and graduate school expect to honor. In that context, the conditions affecting such offers and their acceptance must be defined carefully and understood by all parties. Students are under no obligation to respond to offers of financial support prior to April 15; earlier deadlines for acceptance of such offers violate the intent of this Resolution. If a student accepts an offer before April 15 and subsequently desires to withdraw that acceptance, the student may submit a written resignation of the appointment at any time through April 15. Applicants are not required to obtain a formal release from the program whose offer they accepted, either before or after the April 15 deadline. Once applicants have informed the program that they are withdrawing their acceptance of the offer, they then can accept any other offers. (https://cgsnet.org/resources/for-current-prospective-graduate-students/april-15-resolution/)

Department of Computer Science - Additional information

Professor Alex Psomas believes your qualifications and interests coincide with current projects under his direction and is offering you this teaching assistantship for the first year of your graduate study in Computer Science at Purdue. This includes funding for fall and spring. Professor Psomas will be your initial academic advisor and may or may not become your permanent academic advisor. You may contact him with questions or concerns.

The Department of Computer Science is dedicated to supporting doctoral students throughout their academic journey. In addition to the teaching assistantship offered during the first year, funding will continue each consecutive semester for an additional six semesters, as long as you meet the conditions for continued support. This funding may be in the form of either a teaching assistantship or a research assistantship for semesters three through eight, as outlined below.

Your total four (4) year package is valued at approximately $233,835.96.

Computer Science Departmental Conditions for <u>first</u> academic year assistantship

- Arrive on campus by August 17, 2026 and participate in CS Orientation
- Register for and attend CS 59100TA-Effective Teaching in CS in Fall 2026

Computer Science Departmental Conditions for continued funding, semesters three-eight

- Perform satisfactorily in any duties assigned
- Meet all PhD requirement deadlines
- Funding may be as an RA or TA. Please note that salaries for teaching assistants may differ from salaries for research assistants.

Conditions for continued funding, semesters nine+

Beyond the first four years, the department will make every effort to continue your support, provided you perform satisfactorily in assigned duties and make good progress toward your PhD degree each semester. These conditions must be met every semester to receive financial support the following term. If the conditions are not met, your funding may be terminated immediately.

Purdue University Assistantship Reply
